TRANSPORTATION AND INFRASTRUCTURE COMMITTEE MEETING July 1, 2015

Presentation City of Santa Rosa

Jose Campos, Mayor Timothy Dodge, City Manager The City of Santa Rosa is a regional transportation hub with a population of 2,744, with I-40 (Route 66), US Hwy 91, US Hwy 84 and US Hwy 54 passing through our community. An example of the traffic loads Santa Rosa middle interchange has a daily count of 7,488. Keeping up with the repair and replacement of the transportation infrastructure needs has become challenging with the current economic climate. We have seen cost of construction increase and resources decrease. The city has 12.77 miles of roads. In 2012, the City conducted an inventory of all streets and their conditions in our Pavement Management Plan.

Sidewalks

Road

POTHOLES

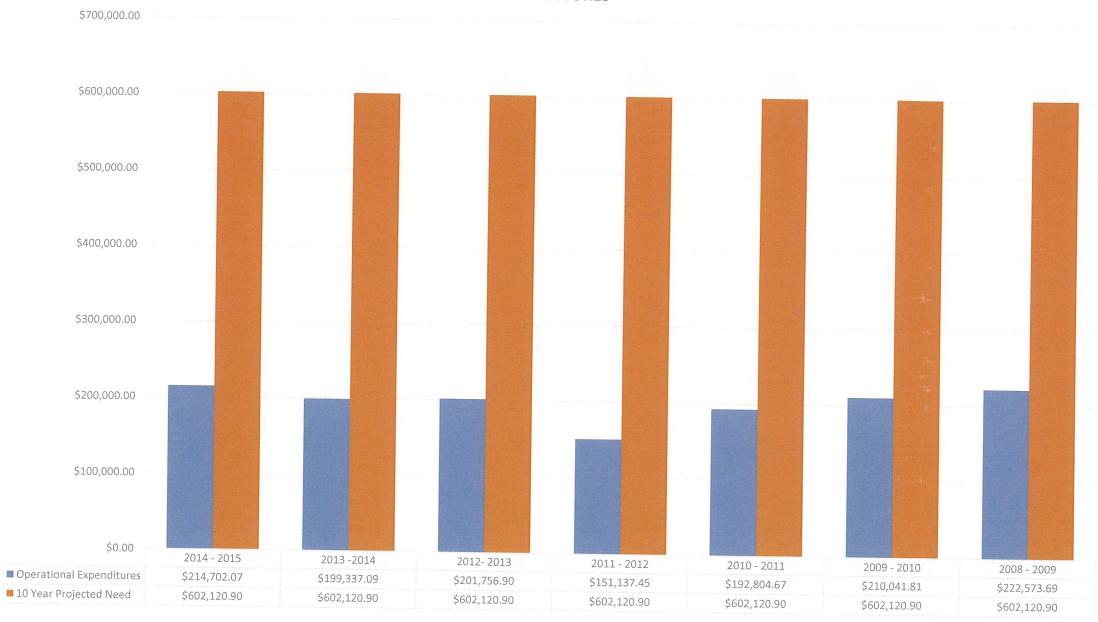

Pavement Management Plan, 2012, shows that the next 10 years the city will need \$6,021,209.00

| NEED | (Engineer's Inc.) | | | | |

EXPENDITURES

With the current needs and the available resources, this is a clear picture of the deferred maintenance that the City's transportation system has and will continue to receive if additional resources are not made available.
